PROFESSIONAL PROFILE

Motivated and detail-oriented Magna Cum Laude graduate of Bachelor of Science in Computer Science from the Polytechnic University of the Philippines (PUP) with hands-on experience in software development through academic projects and a game development internship. Strong foundation in programming, database management, algorithm design, and web technologies. DOST-SEI RA 7687 scholar with strong problem-solving, teamwork, and leadership skills, eager to develop scalable, user-focused solutions in dynamic IT environments.

PROFESSIONAL EXPERIENCE

Game Developer Intern – Lamina Studios | Game Development Project | Certificate | C#, Unity — July — August 2025

Solo developer intern on a horror video game project. Developed gameplay mechanics (first-person controls, collectibles, triggers, AI enemy behavior) and designed UI elements such as menus, settings, objectives, and game-over screens.

ACADEMIC PROJECTS

Hybrid PSO–ACO Logistics Optimization System | Tool and Thesis Manuscript | *Python, HTML, CSS* — June — Dec 2025

Hybrid of Particle Swarm Optimization (PSO) and Ant Colony Optimization (ACO) that improves 3D loading and unloading efficiency in delivery vehicles by minimizing relocation count and maximizing volume utilization, tested through a simulation web app against standalone PSO and ACO.

JARGEN | GitHub | *Python, HTML, CSS* — Sept 2024 — Jan 2025

A personalized programming language for Generation Z programmers, inspired by Python and JavaScript, combining the strengths of both with syntax catered to Gen Z coders. Includes lexical and syntax analyzers with error detection for a smoother coding experience, and a web-based interface for easy code testing.

SSS Database | GitHub | *Java, MySQL Workbench* — Feb — July 2024

Database management system for the Social Security System (SSS) that creates a smooth registration process for SSS users and beneficiaries. Features a straightforward registration form with easy-to-understand input fields and basic Create, Read, Update, and Delete (CRUD) operations connected to MySQL Workbench.

More projects (BagEats, Bato-Bato Pick, OOPtify) and full project details are in my Portfolio.

EDUCATIONAL BACKGROUND

Polytechnic University of the Philippines (PUP) | Bachelor of Science in Computer Science — 2022 — 2026

Magna Cum Laude | GWA: 1.22 | Consistent President's Lister | DOST-SEI RA 7687 Undergraduate Scholar

Adamson University | Senior High School – STEM - Technology Strand — 2020 — 2022

Top Graduate of STEM - Technology Strand | Graduated with High Honors

TOOL PROFICIENCY

Programming & Database: C, C#, Java, Python, SQL, HTML, CSS
Development & Multimedia: Visual Studio Code, GitHub, Figma, Canva, Adobe Photoshop, Adobe Premiere Pro
Productivity: Microsoft Office (Excel, Word, PowerPoint), Google Workspace

SOFT SKILLS

Leadership • Creativity • Teamwork • Time Management • Organized • Critical Thinker
